# A long-term investment in leisure at the marina

Relaxation, ease and elegance of Newport Beach can be found in Ventura County.

**By Cheryl Ellis**  
*Special Sections writer*

Dockside living is more than just a choice of location, it is a lifestyle. In Southern California, it has typically been associated with Marina del Rey or Newport Beach, but with new developments springing up along the waterfront in Oxnard, this lifestyle is now available in Ventura County for literally half the price.

Westport is one of the developments that recently made a home at Mandalay Bay in the Channel Islands Harbor, and the property at 1568 Twin Tides Pl. is one of the flagship properties there. A shining example of this luxurious lifestyle, it is captivating and full of pleasant surprises.

Realtor Kim Dolan calls it "Newport Beach at a Mandalay Bay price."

"To a lot of people this house is overpriced for the area," she said, but the price is justified by the luxury of the home and the lifestyle it affords. "This home would sell in a minute in Newport Beach. Those are the people I am targeting. You couldn't buy a house like this for under \$16 million in Newport Beach."

And she said there is a long-term investment to be realized here as well.

"Our area in Channel Islands has so much more to offer and it is time for people to realize that," Dolan

This Mandalay Bay estate sits on a corner lot featuring approximately 229 feet of usable dock space and an enormous deck that has been built with style and upscale entertainment in mind.
